**Introduction:**

This report provides the latest key information from Devon Home Choice and covers the period from 1<sup>st</sup> April 2021 to 31<sup>st</sup> March 2022.

**Households registered with Devon Home Choice:**

There has been a 14% increase in the number of applicants in Bands A to D between 1<sup>st</sup> April 2021 and 1<sup>st</sup> April 2022.

The number of applicants in Band E also increased by 14 between 1st April 2021 and 1st April 2022.

The proportion of households in housing need in Band B has again increased by 1% since April 2021 (as it did in 2020/21) to 18%, this equates to an increase of 516 applicants in total.

Devon Home Choice  
Quarterly Monitoring Report  
(April 2022)

Note: The percentages given for Bands A – D in Table 1 refer to the proportion of households in housing need who are in that Band (e.g. 18% of all households in housing need across Devon are in Band B). The percentage given for Band E refers to the proportion of households in Band E of all those registered (e.g. 33% of households registered across Devon are in Band E).

Table 2 below shows the change in numbers on the register by local authority between 1<sup>st</sup> April 2021 and 1<sup>st</sup> April 2022. All local authorities apart from East Devon and North Devon saw an increase in the number of households in housing need over the year for Bands A to D. Plymouth, South Hams, Torridge and West Devon had a percentage increase of 30% or more in the last year of households in housing need compared to the year before.

**Table 2: Change in numbers on the register between 1<sup>st</sup> April 2021 and 1<sup>st</sup> April 2022**

Devon Home Choice  
Quarterly Monitoring Report  
(April 2022)

Table 4 below shows the numbers on the register in housing need (Bands A – D) in each local authority area by quarter. Q4 of 2021/22 saw an increase of 1,097 in the number of households in housing need, a 5.9% rise and the largest numerical increase since October 2018. Since April 2020, there has been a 26.5% increase in applicants in Bands A to D across Devon. This equates to 4,120 households.

Table 6 below shows the proportion of applicants by local authority and Band who are considered to be inactive (e.g. they have not logged in or bid during the last 6 months and are not on autobid).

The percentage of inactive applicants has reduced compared to April 2021 figures. All Band A applicants across Devon are now considered to be active. East Devon has the highest overall percentage of inactive applicants but these are mainly for applicants in Bands D and E.

20% of applicants in Band B are considered to be inactive, ranging from 6% in Mid Devon to 28% in Plymouth.

Table 8 below shows the average number of bids received for general needs homes let by property and size. Two bedroom homes have received the lowest average number of bids throughout the period that we have reporting this information.

Quarter 4 of 2021/22 saw the highest average number of bids for 1, 2 and 3 bedroom homes, whilst quarter 3 saw the highest average number of bids for 4 bedroom homes. The last year has seen the highest number of bids on average for all bedroom needs on record.

From the trend that is emerging based on the previous years' figures the average number of bids for all properties is increasing across Devon. This ties in with the increasing number of households in housing need on the register compared to the decrease in the number of social homes available in Devon (see Table 16 below).
